10-HOUR OCCUPATIONAL SAFETY AND HEALTH

On January 1, 2003 the 10-Hour Occupational Safety and Health Bill was submitted to the Commonwealth of Massachusetts. On July 30, 2004 the House voted 154 to 0 to make this Legislation Law.

July 31, 2004 the Senate voted 37 to 0 to make this Legislation Law. This means that on July 1, 2006 no one will be allowed to work on public construction projects without completing the 10-Hour O.S.H.A. course.

The Engineers Training Center holds this class monthly. I urge all members to take this course as soon as possible, without this course the Business Representatives will not be able to put you to work.
